ACERAMIC (Polton) Neolithic age

10,600 yrs ago = 8,600 BC

Gardening first became a distinctive way of life at Jericho, in the rift valley of the Jordan, where domesticated wheat & barley different from the wild varieties, appeared 10,600 yrs ago as a product of biotechnology. The world's first town arose at Jericho, at that time, and the burghers built a wall around it, four meters high to protect their stockpile of grain from bandits.
